I'm sorry John – I know you and team are quite weary of this nightmare that does not want to end....but we just have to be MUCH MUCH MUCH smarter than this lot to survive. ☺.

Ah! That perspective is helpful. Not easy to deal with though!  
I'll mull it over and talk with Steve. Suggestions for the key questions are welcome!

Thanks John. This is good. Who is David Orlin?

Tina -

I've had a series of calls with Jennifer, Erika, David Orlin, Steve, etc and here's where we are:

SABSO is sending letters to PM panelists today to disband the PM committee. An ozone panel will not be formed. IOAA expects a firestorm.

I'm going to incorporate the May 9 memo Charge questions in their entirety, set off for context (method tbd, perhaps a text box), and retain all the other Charge questions we have and share this with JOZ, OAQPS. Likely today. Though many questions are irrelevant by including all it provides context and is not limiting and also can't be a holdup. We'll provide the Charge when the ISA document is released to CASAC and the public.

JOZ is arranging briefing on PM for the Administrator. Megan Christian is working this.

I've explored other ideas with OGC. Doesn't seem likely to alter current course.

Steve, Tara, Jason et al are making very minor final edits to the PM ISA to fix the pdf. We'll get it to Maureen for 508.
